

ARTICLE III  
PRIVATE SEWAGE DISPOSAL

- A. Where a public sanitary or combined sewer is not available under the provisions of Article II, Section D, the building sewer shall be connected to a private wastewater disposal system complying with the provisions of this Article.
- B. Before commencement of construction of a private wastewater disposal system, the owner shall first obtain a written permit signed by the Superintendent. The application for such permit shall be made on a form furnished by the Village, which the applicant shall supplement with any plans, specifications and other information deemed necessary by the Superintendent. A permit and inspection fee of Two Hundred Dollars (\$200.00) shall be paid to the Village at the time the application is filed.
- C. A permit for a private sewage disposal system shall not become effective until the installation is completed to the satisfaction of the Superintendent. He shall be allowed to inspect the work at any stage of construction and, in any event, the applicant for the permit shall notify the Superintendent when the work is ready for final inspection and before any underground portions are covered. The inspection shall be made within seventy-two (72) hours of the receipt of notice by the Superintendent (weekends and holidays excluded).
- D. The type, capacity, location and layout of a private sewage disposal system shall comply with all recommendations of the Department of Health and the Department of Environmental Conservation of the State of New York. No permit shall be issued for any private sewage disposal system employing subsurface soil absorption facilities where the area of the lot is less than adequate to support the proposed installation. No septic tank or cesspool shall be permitted to discharge to any natural outlet.

E. At such time as a public sewer becomes available to a property served by a private sewage disposal system, as provided in Article II, Section D, a direct connection shall be made to the public sewer in compliance with this Law within ninety (90) days, and the private sewage disposal system shall be cleaned of sludge and filled with clean bank-run gravel or dirt.
