

Water Main Break 5/28/2025

Good Morning, Residents.

There is currently a water main break on Board St. in the Village of Schuylerville, both DPW crews are working to resolve the issue. Please exercise caution in this area.

The water system will be temporarily offline due to a water main break, impacting local businesses and the school.

Consequently, all students will be dismissed and the school will close. Emergency services have been alerted. After the break is fixed, a boil water advisory will be in effect for 48 hours. We will provide additional updates once more information is available.
