

BOIL WATER NOTICE

Loss of pressure in Village of Victory

BOIL YOUR WATER BEFORE USING

Bring tap water to a rolling boil, boil for one minute, and cool before using. Or use bottled water certified for sale by the New York State Department of Health. Boiled or bottled water should be used for drinking, making ice, washing dishes, brushing teeth, and preparing food until further notice.

This Boil Water Notice applies to: Gates Ave, Herkimer Street, Pond Street, Jay Street.

What Happened? At about 8:00AM on 9/30/2026 the water system lost pressure due to the water main being struck during a water related job. When water mains lose pressure it increases the chance that untreated water and harmful microbes can enter your water.

Harmful microbes in drinking water can cause diarrhea, cramps, nausea, headaches, or other symptoms and may pose a special health risk for infants, some elderly, and people with severely compromised immune systems. But these symptoms are not just caused by microbes in drinking water. If you experience any of these symptoms and they persist, you should seek medical advice.

What is being done? The main has been repaired and water is restored as of 10:30am on 9/30/2026.

It is likely that you will need to boil water for 2 days until the problem is fixed.

You will be informed when tests show that you no longer need to boil your water.

For more information, please contact: Jake Fort at 518-538-1480.

Please share this information with other people who drink this water, especially anyone who may not get this notice directly (for example, people in apartments, nursing homes, schools, and businesses).

Date distributed: 9/30/2026

Local Health Department: Saratoga County Department of Health (518) 584-7460
